

SOFTCLEAN™ **Mini**

Portable Chemical Mixing Trolley

A highly portable chemical mixing trolley with a compact dosatron trolley system that can carry up to 10Ltrs of Algoclear.

The trolley allows for mobile solution for precise dosing of Algoclear which you can connect into tap water at the users desired ratio without the need for any electric. The trolley can be folded down for easy storage and has a telescopic handle.

Features & Benefits

- Easy to store with a collapsible design
- Stainless steel frames
- Pressure release safety valve
- Carries 10Ltrs of Algo clear (not included)
- Can be used with Sodium Hypochloride but equipment must be rinsed afterwards

SOFTCLEAN™ Mini	
Country Of Origin	England
Maximum Height	733mm
Maximum Length	320mm
Maximum Width	270mm
Dry Weight	5.0kg
Inlet Pressure Requirement	20psi
Inlet Water Flow Requirement	15Lpm
Optimum Operating Pressure	45psi
Standard Water Inlet Connection	Hoselock connection
Minimum Operating Temperature	5°c
Maximum Operating Temperature	40°c
Water Flow (optimum output)	15Lpm
Water Quality Range (MINI l/h - Maxi l/h)	n/a
External Adjustable Injection Rate	0.15-8.75 %
Maximum Viscosity of concetrate	400cSt at 20c
Operating Time	Constant

Please Note - Not suitable for use with Sodium Hypochloride
